

## Europæiske bistandstrends

CONCORDs AidWatch-rapport

På vej mod de 0,7%?

Fyraftensmøde hos Globalt Fokus – torsdag den 16. november 2017

# Det går den rigtige vej...

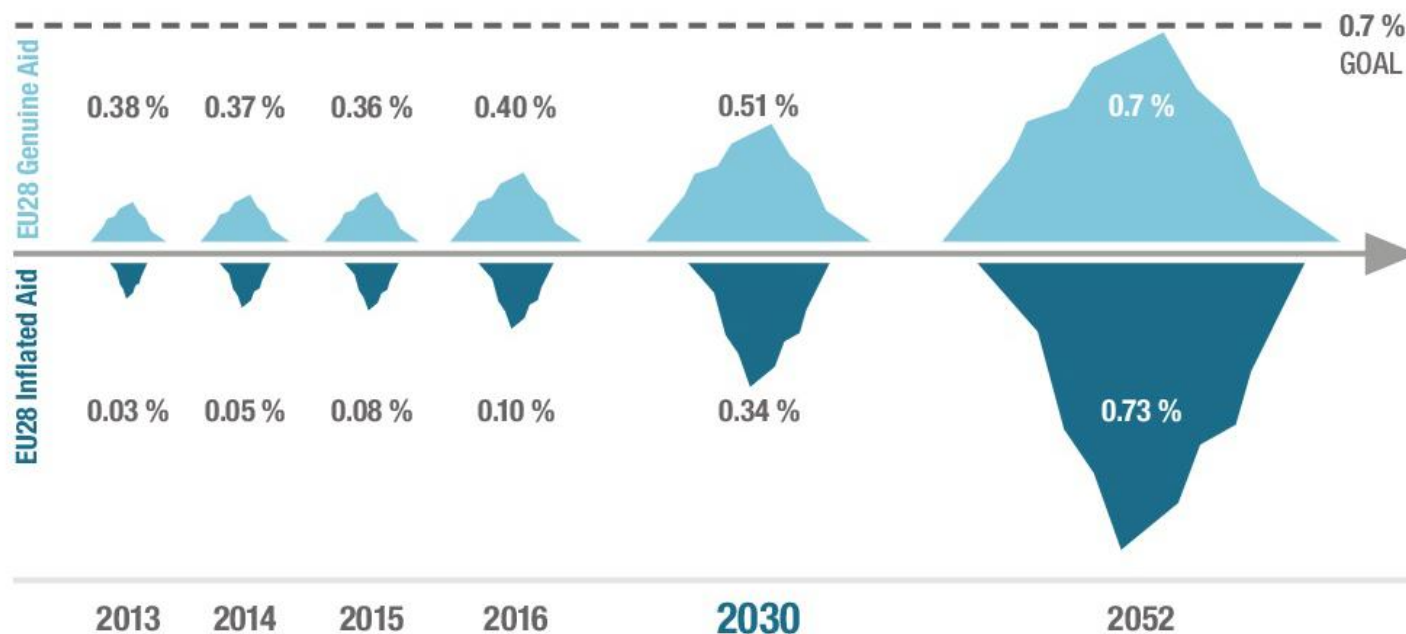

- Flere år med stigninger
- Op 27% seneste to år
- I alt mere end €75 mia i bistand fra EU
- Bredt funderet tendens
- Fortsat få i '0,7%-klubben'

# Men...

- Stadig meget langt fra 0,7%
- En stor andel af bistanden bruges i donorlandene selv
- Mere end halvdelen af stigningerne forlader reelt aldrig EU
- Nedskæringer i traditionelle donorer

# På vej mod de 0,7%...

# EU13...

Graph : Genuine vs Total ODA as % of GNI in the EU13, 2016

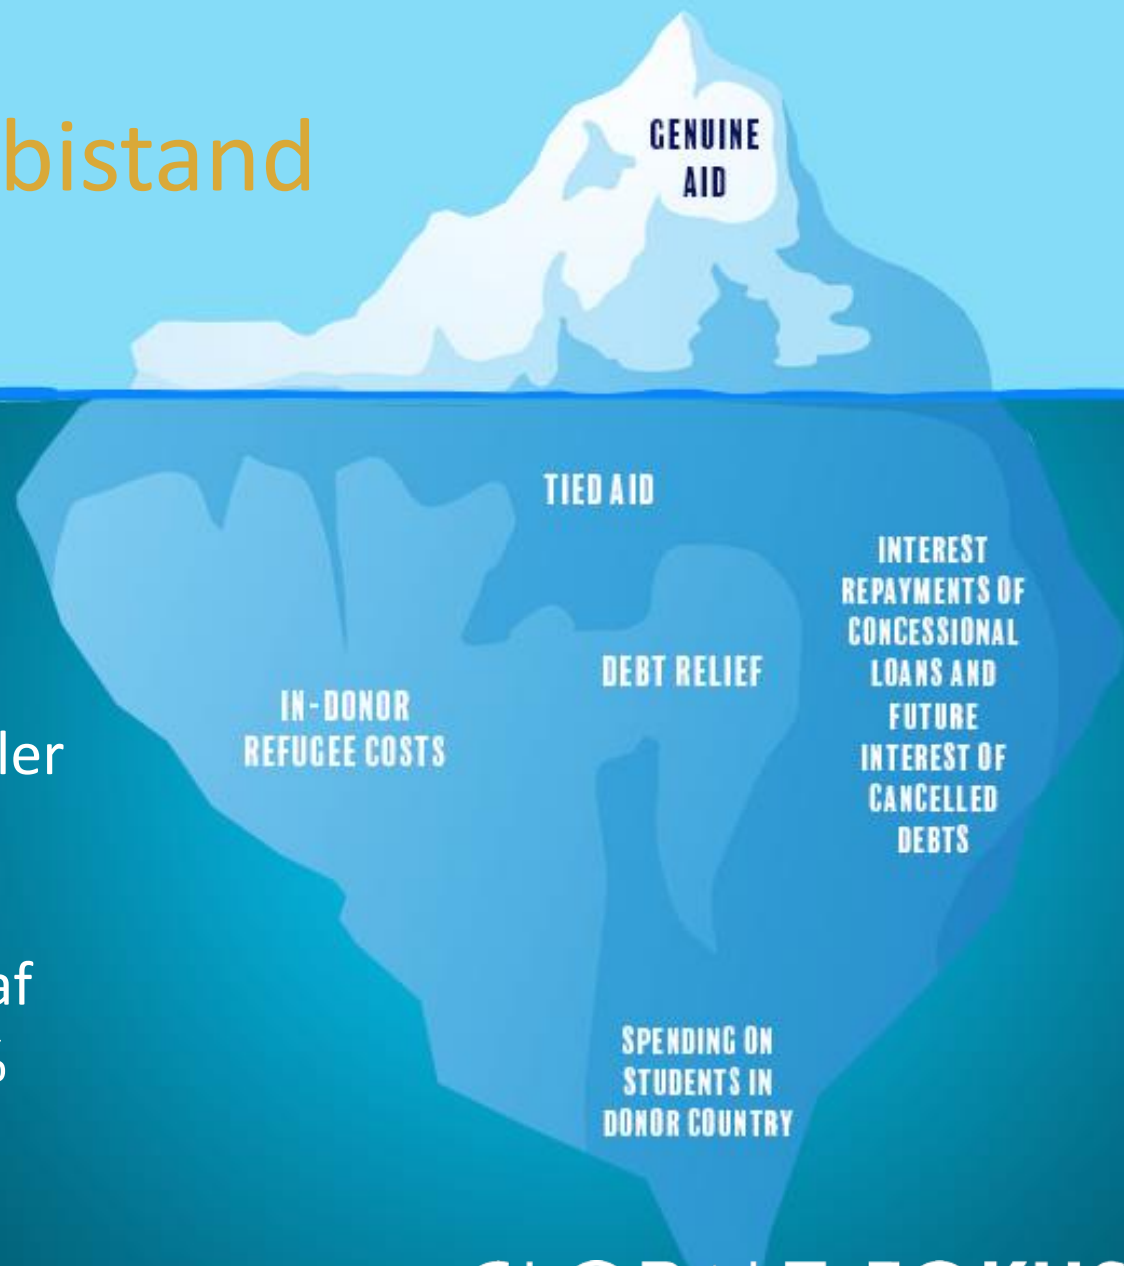

# EU15...

Graph : Genuine vs Total ODA as % of GNI in the EU15, 2016

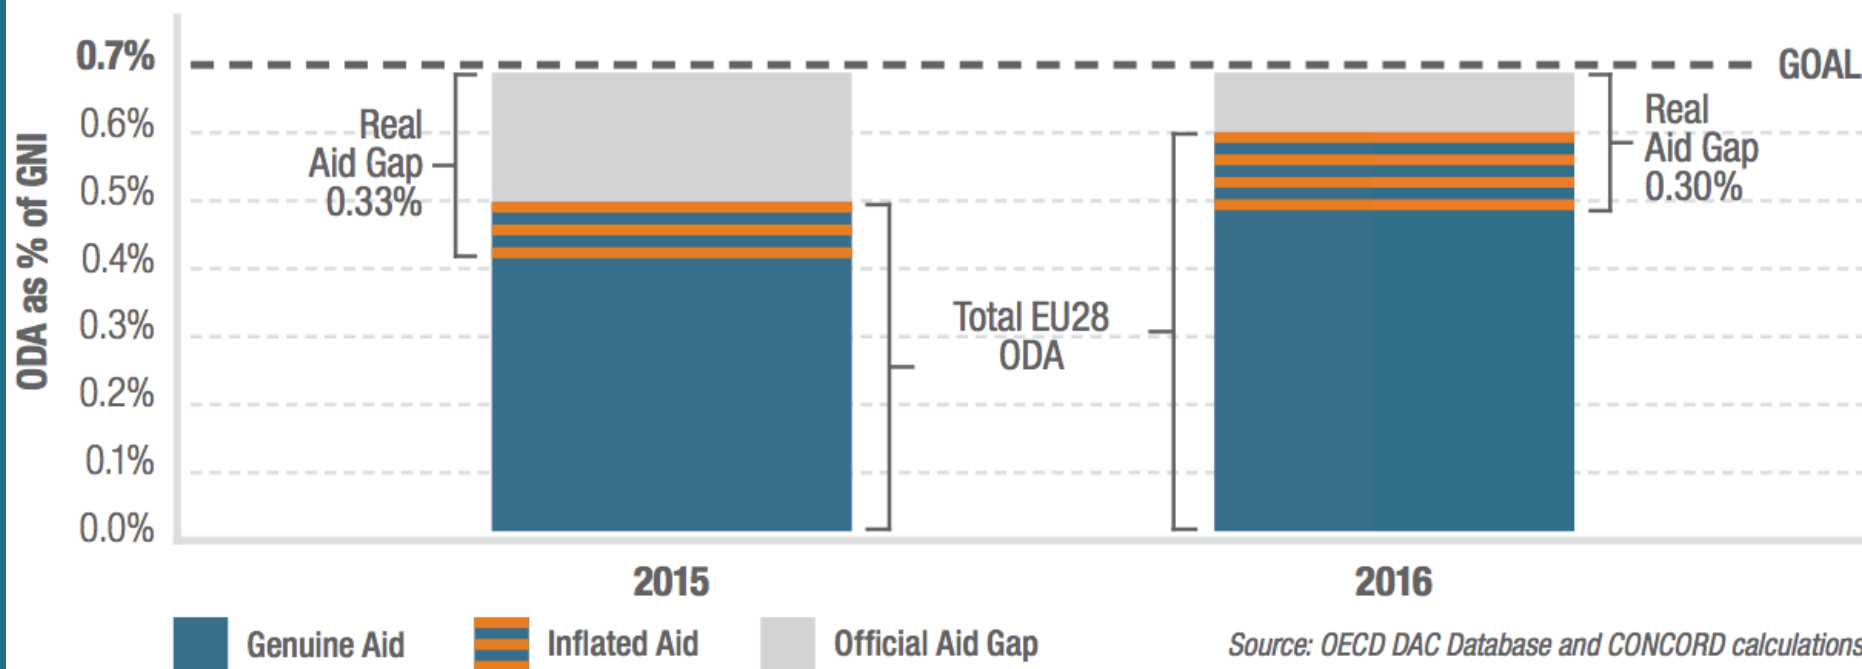

# Inflation og reel bistand

- Stadig flere bistandsmidler bliver i donorlandene
- Udgifter til modtagelse af asylansøgere steget 44% siden 2015.

# EU28 Aid increased in 2016

Graph : Inflated vs genuine aid as % of GNI, 2015 and 2016

# Spørgsmål til diskussion...

- Er det overhovedet rimeligt og relevant at tale om en reel bistand overfor andre 'DAC'able' bistandsudgifter?
- Appetit på et tættere EU-samarbejde på udviklingsområdet? Nødhjælp?
- Hvad betyder det for vores arbejde som CSOer at der faldende fokus på lande, der ikke er interessante ift EU's interesser?
